**Frameworks & Libraries:** React, Angular, Node.js, NestJS, Flask, Redux, Tailwind CSS, Styled Components  
**Tools:** Git, GitHub, Docker, CI/CD, PostgreSQL, MySQL, Redis, Jira, Figma, Postman  
**Platforms:** Linux Environments, API Hosting, Containerized Deployment  
**Testing & Quality:** Unit Testing, Integration Testing, Secure Coding Practices, Code Review, Debugging  
**Security:** CompTIA Security+ Knowledge, API Security, Authentication & Authorization  
**Soft Skills:** Problem-Solving, Analytical Thinking, Communication, Collaboration, Time Management, Adaptability, Accountability, Stakeholder Engagement, Customer Focus

## PROFESSIONAL EXPERIENCE

**Frontend / Full-Stack Developer (Freelance)** Johannesburg, South Africa — January 2020 – Present

- Designed and built responsive web applications using React, Angular, TypeScript, and JavaScript.
- Developed UI components, dashboards, and reusable front-end modules.
- Implemented RESTful API integrations and optimized data flow between frontend and backend.
- Improved performance through state management optimization and database query tuning.
- Built and deployed applications using Git, CI/CD pipelines, and Docker environments.
- Integrated MetaTrader 5 API into a fintech platform and implemented Redis caching for performance.
- Wrote unit and integration tests to maintain high reliability and stability.
- Ensured accessibility and responsiveness across browsers and devices.

### Key Projects:

- Fintech Trading Platform Integration (2023): Node.js + Flask backend with Redis caching and secure API integration.
- Contact Book Web App (2022): Angular + Flask CRUD application with PostgreSQL.
- Personal Portfolio (2025): React and Flask portfolio site with automated CI/CD deployment.

**Sales Manager / Consultant — Virgin Active** Johannesburg, South Africa — February 2019 – June 2024

- Led a team of 5 and improved CRM workflows and reporting.
- Collaborated with technical teams to increase system reliability and uptime.
- Used data-driven insights to support engagement and retention initiatives.

## Sales Consultant — Gym Company

Johannesburg, South Africa — September 2016 – January 2019

- Supported CRM optimization and digital workflow efficiencies.

## IT Technician — Phoenix College

Johannesburg, South Africa — May 2016 – June 2016

- Supported LAN setup, troubleshooting, and maintenance for 200+ users.
- Conducted system security and compliance checks.

---

## PROJECTS

**Fynode E-Commerce — Full-Stack Web Application Tech:** React, TypeScript, Tailwind CSS, Redux, REST APIs, Responsive Web Design Modern e-commerce platform with product filtering and shopping cart functionality. Implemented Redux for global state and optimized UI performance. | [Link](#)

### Real Estate Platform — Full-Stack Application

**Tech:** React, Node.js, Tailwind CSS, Authentication, REST APIs

Property listing platform with secure login, search filters, and responsive layouts. Built reusable UI components and | [Link](#)

API integrations. Live **Premium Sneakers — Frontend Web Application**

**Tech:** React, Framer Motion, CSS Modules

High-performance sneaker showcase website with smooth animations and modern UI. | [Link](#)

### Coffee House — Headless CMS Web App

**Tech:** React, WordPress API, Styled Components

React frontend integrated with a WordPress headless CMS to dynamically manage content. | [Link](#)

### Weather Site — Backend API Service

**Tech:** Python, Node.js, REST APIs, Third-Party API Integration

Backend service providing real-time weather data and forecasts. | [Link](#)

### Real-Time Dashboard — Full-Stack Application

**Tech:** React, Node.js, Express, Socket.io, WebSockets

Real-time dashboard displaying live data using WebSockets. | [Link](#)
